About Dave Damage

From his home base in Miami, electronic violinist Dave Damage is poised to take the rest of the world by storm, having turned his knowledge of music and his instrument into a truly unique live show. With influences ranging from heavy metal and jazz, to trance and hip-hop, Dave's unique sound has helped him make a name for himself not only as a live performer, but as a session musician, collaborating artist and music producer.

In the studio, his focus is on Trance, Progressive House, Melodic Techno and other melodic styles. However as a live performer, Dave commands a distinctive niche: his ability to transition between house, techno, EDM, hip hop, reggaeton, salsa, Latin music, rock, hip hop and everything in between. Damage plays by ear, improvising over the music to enhance the song, and overall vibe. This ability allows him to work with any DJ or performer, and within most genres of music.

Having held multiple residencies at high-profile nightclubs in Miami and Fort Lauderdale, Dave is a mainstay on the club circuit in South Florida. He regularly performs for high-end weddings, charity events and corporate events, as well.
